In a document dated 16 January 2004, the following events were noted:

The 20040114 session lasted over nine hours.

Prior to the start of the 20040115 session, 052 asked the guards if he could have the Quran. As previously planned, the Quran was left in SHU Control, with the instructions that if 052 asked for it, give it to him. Though 052 was surprised he had the Quran, he did not make a big deal of it during the interrogation.
