Abduction fantasy

Akuma689

Hey, I live a couple hours away from you and read your rape/kidnapping fetish post...

I'm looking for someone like you. I know I don't have any personal pics on my profile but I can send you some if you respond. 27/m, about 6 feet tall and pretty muscular.

1LostAngel

I'd be interested in chatting

Would you have any specific requests? Limits? I have a few ideas on how I'd go about it but need to know who I'd be playing with first

1LostAngel

Handsome...

I'm not into anal so anything ass related is off limits.. I'd prefer no cuts or visible marks.. Pretty good w most other stuff.. What ideas did you have in mind?

Akuma689

The standard is that I'd "break" into your house and be waiting for you and jump you when you least expect it, or get you while you're in the shower

Akuma689

For logistics, I'd just need to know what times you'd be alone in your house. I think it could add an air of suspense if you don't know exactly when it will happen...

I'd bind you, gag you, and likely put you in a large duffel bag so no one could see you. After I get you in my trunk/backseat I think for safety reasons I'll check to make sure you're okay, and I think using something like a single piece of duct tape during this part would be preferable since if something bad happens you'd actually be able to take it off your mouth and get my attention. I'd take you to a motel. We'd try to pick one where neighbors won't be a huge concern.

As far as I know, I have no real limits. It's really up to you to decide what we can't do.

I can look into the letter of consent more; I doubt it has to be too detailed.

1LostAngel

Knowing when I'd be home alone is something I can't ever pinpoint.. Which is why the home invasion part gets frustrating

Akuma689

Hmmm, then so long as you can give me a general idea of the times you might be alone and the number of people you love with I think I can make it work.

1LostAngel

I live w two people.. They dont have set schedules so I usually dont know till almost last min when they are going to be here or not

Akuma689

Sorry I haven't responded in a while...

That's kind of tough unless I set aside a decent amount of time to stalk and prepare. That's not off the table but requires a lot of effort. You definitely know more about this part than me...what do you think? To me, the bigger the challenge, the more interesting it is, but since you don't know me I have to leave things up to you at some point. We could try to set something else up instead.

Akuma689

I've been thinking about it a lot more and here are some things I thought of. I've never done this sort of thing before but I've planned out/fantasized about it a lot so most of the...real logistics are worked out but not much regarding the consensual part.

An unused back road would probably be best. Doing it in a park/forest with no foot traffic or cameras would also work. I know you said your house was off limits but if it's possible for me to abduct you there and then take you somewhere else, that would be by far the easiest.

Having a letter of consent in case the cops get involved would save me from going to jail...

I am not worried whatsoever about not being able to scare you or being unable get you into the right mindset.

1LostAngel

We would definitely have to work out logistics, limits, what would be allowed/ used.. Of course a letter of consent..

I'm fine w being abducted and taken somewhere
