International Student Kidnaped?

Just heard rumors that a female international student was lured into a car and hasn't been seen since yesterday afternoon...

Apparently the cops and general consulate have only recently been contacted.

Anyone know anything about this?

EDIT: UI Police Facebook (<https://www.facebook.com/UIpolice/>) - check the most recent post

ADD: New info being passed around suggests the kidnapper was driving around in a black sedan, saying that he was an undercover cop (supposedly presented a badge) and needed the victim to get in the car so he could ask them some questions.
